

VISION

TMTCSM is a leading center of medical education and innovation for the global health community.

MISSION

A community of innovators in health and medicine with a shared sense of value and purpose that embraces:

1. a culture of critical thinking and creativity;
2. life-long learning focused on ethical, safe and equality patient-centered care;
3. population-based health research;
4. excellent listening and communication skills that exemplify kindness, compassion and empathy;
5. interdisciplinary collaboration enriching health outcomes and universal health care;
6. partnerships to strengthen academic exchanges, mentorships, and unity.
